Oct 2011,

Vancomycin Name Change to Reflect USP Monograph Update

Dear Valued Customer:

As a proven leader in providing safe, effective and rigorously tested products, PPC would like to inform you of the United States Pharmacopeia (USP) monograph name change for PPC's Sterile Vancomycin product.

USP has changed the name from:

Sterile Vancomycin Hydrochloride, USP

To

Vancomycin Hydrochloride for Injection, USP

As such, we have updated all of our packaging and labelling to reflect the updated monograph. We assure that there have been no changes to the drug formulation.

If you have any questions or concerns, please do not hesitate to contact your hospital representative or the undersigned.

Sincerely,

Sabrina O'Neill
Product Manager
